What were the Fund costs for the last year?

(Based on a hypothetical $10,000 investment)

	Costs of a $10,000 investment	Costs paid as a percentage of a $10,000 investment
Class A	$88	0.81%

Gross expense ratio as of the latest prospectus: 0.82%. See prospectus for any contractual or voluntary waivers; without a waiver, costs would have been higher.

How did the Fund perform last year and what affected its performance?

Class A shares of the Fund returned 16.17% (unadjusted for sales charges) for the period ended September 30, 2026. The Russell 1000® Index, returned 15.01% for the same period.

Stock selection in the information technology sector was the primary driver of the Fund's outperformance relative to the Russell 1000 Index. Overweight positions in the semiconductor companies Micron Technology, Inc. (4.1%), Advanced Micro Devices, Inc. (3.5%), and MKS, Inc. (0.3%), all of which benefited from sharply rising demand driven by the buildout of AI infrastructure, were the leading contributors in the category. An overweight in Apple, Inc. (9.2%) which performed very well from early April onward behind strength in its services business and optimism about the launch of its new iPhone model, further helped results. While performance in information technology was positive overall, the sector was also home to two key detractors: Oracle Corp. (1.4%) and Microsoft Corp. (7.8%). Both lagged amid broader underperformance for the software industry.

The consumer discretionary sector was another area of strength. An overweight in General Motors Co. (0.6%) was a key contributor, as were a zero weighting in Home Depot, Inc. and an underweight in Tesla, Inc. (1.1%).

Other notable contributors included HF Sinclair Corp. (0.5%) in energy, Amgen, Inc. (1.6%) in health care, and Caterpillar, Inc. (0.9%) in industrials.

Stock selection in the utilities sector detracted from relative performance. Nearly all of the shortfall was the result of an overweight in NRG Energy, Inc. (0.7%). Although NRG reported healthy earnings, the stock lagged its sector peers due to heightened regulatory uncertainty and costs associated with an acquisition. The Fund also underperformed in health care. In addition to having a zero weighting in Eli Lilly & Co., which outpaced the sector on continued optimism about its obesity drugs, the Fund was hurt by a position in the animal health company Zoetis, Inc. (0.3%). Outside of these sectors, Owens Corning (0.4%) and the homebuilder PulteGroup, Inc. (1.0%) — both of which were pressured by the soft housing market — were among the largest detractors.

Percentages in parentheses are based on the Fund's net assets as of September 30, 2026.

Fund Performance

Russell 1000® Index measures the performance of the large-cap segment of the US equity universe. It is a subset of the Russell 3000® Index and includes approximately 1,000 of the largest securities based on a combination of their market cap and current index membership. The Russell 1000 represents approximately 93% of the US market. The Russell 1000® Index is constructed to provide a comprehensive and unbiased barometer for the large-cap segment and is completely reconstituted annually to ensure new and growing equities are included.

Index returns do not reflect any fees or expenses and it is not possible to invest directly into an index.

Performance shown is historical. The Fund's past performance is not a good predictor or guarantee of the Fund's future performance. Investment return and principal fluctuate, so your shares may be worth more or less when redeemed. Current performance may be lower or higher than the performance data quoted. The performance graph and returns table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Please visit dws.com/en-us/products/mutual-funds for the Fund's most recent month-end performance. Fund performance includes reinvestment of all distributions. Unadjusted returns do not reflect sales charges and would have been lower if they had reflected sales charges.
