Select payment method:

☐ A check sent to the address listed in Step 1.

☐ Funds sent to my bank (I have attached a voided check or deposit slip in Step 6.)

Step 8 Tax withholding information

Distributions from the account are generally subject to Federal (and possibly state) income tax. Even if you elect not to have Federal income tax withheld, you are liable for the full payment of Federal income tax, any state or local taxes, and any penalties that may apply to the distribution. You also may be subject to tax penalties under the estimated tax payment rules if your payments of estimated tax and withholding, if any, are not adequate.

If you choose to withhold Federal taxes, DWS will withhold any mandatory state taxes as well. If you would like to provide for any other state withholding, including for states where withholding is voluntary, you must complete the state withholding section below.

Before selecting a withholding option, please consult your legal or tax counsel for advice and information concerning your particular situation. Neither DWS nor any of its representatives may give tax or legal advice. Withholding requirements, exclusions and withholding tax rates are subject to change at any time. For the most up-to-date information on your state's tax withholding requirements, visit your state's website.

Federal withholding

For distributions subject to Federal income tax, the default withholding rate is 10%. 10% of your distribution will be withheld and forwarded to the IRS unless you elect for a different rate to be withheld by completing Form W-4R. As indicated on Form W-4R, you can choose a rate between 0% (no Federal withholding) and 100%. If we do not receive a completed Form W-4R from you, we must withhold the default rate of 10% and you will be deemed to have elected this default rate. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its possessions. If you elect not to have withholding apply to your distribution, or if you do not have enough Federal income tax withheld from your distribution, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient.

For automatic withdrawal plans: If you selected to take distributions as part of an automatic withdrawal plan in Step 5 above, your Federal withholding election will remain in effect until you change it. You may change or revoke your election at any time by sending a completed Form W-4R to the address provided in this form. Please allow adequate time for us to process your request before the next scheduled distribution.

A copy of Form W-4R may be included with this distribution request form, or can be accessed at https://www.irs.gov/forms-instructions.

State withholding

For states and the District of Columbia that mandate withholding on distributions, DWS will automatically withhold the minimum required amount and forward it to the appropriate revenue service only if you have also elected for Federal withholding above. If you would like to specify an amount greater than the minimum, or if you would like to have voluntary state withholding taken, please indicate below. If the state withholding option is selected and your state does not accept withholding, DWS will not take state withholding from your distribution.

☐ Withhold $ and forward to my state revenue service. (If the dollar amount provided is less than the state minimum, we will withhold the minimum amount required by your state.) In addition, if there are multiple funds and/or accounts, the total withholding amount will be divided equally.

Step 9 | Signature

I request the above distribution(s) and am aware that I am liable for the payment of federal income tax and possibly state and local taxes on the taxable portion of my distribution(s). I certify that I have the authority and legal capacity to request a distribution. If the beneficial owner is a minor, the parent/guardian must sign and have his/her signature "signature guaranteed."

I certify under penalties of perjury that:

1) The Social Security number provided on this form is correct and may be used to report a distribution for me by the Funds; and

2) I am a U.S. person (including a U.S. resident alien).

☐ Please select this box only if you are subject to backup withholding. Include a copy of the notification letter you received from the IRS.

The Internal Revenue Service does not require your consent to any provision of this document other than the certification for your Social Security number.

You must have a Medallion Signature Guarantee if your distribution is:

- mailed to an address other than the address listed on the account.
- mailed to an address that has changed within the past 15 days.
- made payable to another entity.
- sent electronically to a new bank. All DWS owner(s) and all additional bank account owners must sign.
- invested in a DWS Fund account with an additional account owner.
- more than $100,000.

† If acting as Power of Attorney, or on behalf of an entity such as a Trust or an estate, you must sign in capacity with your title next to your signature as it relates to this account (i.e. Joe Smith, Attorney-in-Fact, Anne Johnson,Trustee; etc.). The institution providing the Medallion Signature Guarantee for these types of accounts will require additional documentation. You may wish to contact the institution to confirm the documentation they require to provide you with a Medallion Signature Guarantee. The information provided by DWS should not be considered tax or legal advice. The rules affecting distributions from these accounts are complex and subject to change. Please consult your own tax or legal professional regarding your particular tax or legal situation before requesting a distribution.

Step 9 | Signature (continued)

Special note to Medallion Signature Guarantee guarantors: By affixing the Medallion Signature Guarantee, you are verifying the identity of the individuals and entities assigned to this account and are accepting liability for any misrepresentation as it applies to this registration and any accompanying documentation.

Medallion Signature Guarantee

A Medallion Signature Guarantee is issued by a bank, savings and loan, trust company, credit union, broker/dealer, or any member or participant of an approved signature guarantee program. Please note that a notary public is not an acceptable guarantor. An officer of the institution will ask for identification to be sure that you are, in fact, the person identified on this form and the person signing it. Once the guarantor has reviewed your request, verified your identity and your authority to act on the account presented to them, they will affix a Medallion Signature Guarantee stamp to your form.

DWS prefers Medallion Signature Guarantee stamps. We must receive an original stamp. If more than one signature is required on this form, we will need separate stamps for each signature. If you are obtaining a non-Medallion Signature Guarantee, please contact us. We may require additional documentation to complete your request.

The information provided by DWS should not be considered tax or legal advice, the rules affecting distributions from these accounts are complex and subject to change. Please consult your own tax or legal professional regarding your particular tax or legal situation before requesting a distribution.

Your withholding rate is determined by the type of payment you will receive.

- For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% on line 2. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its territories.
- For an eligible rollover distribution, the default withholding rate is 20%. You can choose a rate greater than 20% by entering the rate on line 2. You may not choose a rate less than 20%.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to *www.irs.gov/FormW4R*.

Purpose of form. Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment or eligible rollover distribution from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See page 2 for the rules and options that are available for each type of payment. Don't use Form W-4R for periodic payments (payments made in installments at regular intervals over a period of more than 1 year) from these plans or arrangements. Instead, use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

2026 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See page 2 for more information on how to use this table.

General Instructions *(continued)*

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering "-0-" on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including "-0-") on any payments to be delivered outside the United States and its territories.

Note: If you don't give Form W-4R to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can't honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2026, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can't choose withholding at a rate of less than 20% (including "-0-"). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don't give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions for purposes of these withholding rules:

- Qualifying "hardship" distributions;
- Distributions required by federal law, such as required minimum distributions;
- Distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions;
- Qualified long-term care distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding* above.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter "-0-" on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Line 1b

For an estate, enter the estate's employer identification number (EIN) in the area reserved for "Social security number."

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including "-0-") if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter "-0-".

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for *Examples 1* and *2*. Your filing status is single. You expect the taxable amount of your payment to be $20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be $70,000 without the payment. Step 1: Because your total income without the payment, $70,000, is greater than $66,500 but less than $121,800, the corresponding rate is 22%. Step 2: Because your total income with the payment, $90,000, is greater than $66,500 but less than $121,800, the corresponding rate is 22%. Because these two rates are the same, enter "22" on line 2.

Example 2. You expect your total income to be $60,000 without the payment. Step 1: Because your total income without the payment, $60,000, is greater than $28,500 but less than $66,500, the corresponding rate is 12%. Step 2: Because your total income with the payment, $80,000, is greater than $66,500 but less than $121,800, the

corresponding rate is 22%. The two rates differ. $6,500 of the $20,000 payment is in the lower bracket ($66,500 less your total income of $60,000 without the payment), and $13,500 is in the higher bracket ($20,000 less the $6,500 that is in the lower bracket). Multiply $6,500 by 12% to get $780. Multiply $13,500 by 22% to get $2,970. The sum of these two amounts is $3,750. This is the estimated tax on your payment. This amount corresponds to 19% of the $20,000 payment ($3,750 divided by $20,000). Enter “19” on line 2.
